Better ideas for your success

Dedication and performance A high level of commitment and daily contact with our customers are the decisive factors in the success of Permapack. Mutual trust and an open, active communication are thereby the basis of our joint success.

Ideas and innovation Our main task is to search for, find and implement better ideas. In doing this, we are able to build on extensive market, range and product expertise. The results of this are individual solutions for optimal customer benefits in various branches of industry.

Employees and investment We provide intensive support to our employees through training and further education. In this way, we promote the continuous optimisation of our processes. The on-going investment in new technologies and machinery also contributes to improving the performance of Permapack.

Customer benefits and logistics Our transparent price policy in combination with our comprehensive know-how in procurement and production guarantee you an outstanding price-performance ratio. Thanks to our efficient logistics, you can also profit from a comprehensive and reliable service.

Partnership and success Our highly motivated teams are ready for new challenges. Together, we will achieve the set goals and will ensure your lasting success within a real partnership – because your success is our goal.

Permapack: Your powerful partner with clever ideas

Since its inception in 1958, Permapack has undergone constant further development. Today we employ around 270 persons. As an independent family company we are committed to Switzerland as a place to do business – now and in the future.

Structures for your success Our business unit structure guarantees fast decision-making. Within our departments, we focus on specific branches to guarantee professional service for our customers. Our staff play a central role here – with a high sense of responsibility and the necessary skills.

Consistent quality As a manufacturing and trading company, we are able to react flexibly to all market needs. Our own finishing department makes the fast and uncomplicated production of practical and attractive sales presentations possible. Consistent product quality in the stages good – better – best and a high supply capability guarantee optimal customer benefits. Permapack is certified to ISO 9001.

Market segments and products We supply an extensive range of technical consumables for users in the mechanical, electrical and electronic engineering industries and in paper making, as well as the construction sector and retail trade. Individual packaging solutions from Permapack optimise production processes for beverage and food manufacturers. Other strengths of Permapack are customised solutions for cosmetics and pharmaceuticals – specially designed to meet the needs at the point of sale.

Own brands and private labels Our own Permafix and Permabond brands are a byword for quality and service. They rationalise and optimise processes in the areas of packaging, industry, building and do-it-yourself. At our customers' request, we also supply private labels in the same uncompromising quality at the right prices for the market.

Customer care and confidence Our field service personnel are on call throughout Switzerland at any time. In cooperation with the technicians in Rorschach, they analyse complex requirements and develop solutions. Our primary goals are to gain the confidence of our customers and establish long-term partnerships.

Customer service

Your wishes, ideas and needs are of central importance to us: Together with the Production and Service departments, our sales teams draw up the right individual solution for you.

Films and lab

A wide range of products from a single source: For keeping fresh, presenting, decoration ...

For drinks, food, fruit and vegetables: Permapack offers you self-adhesive labels, packaging films, adhesive tapes and stretch films – complete system solutions from a single, expert partner.

Tailor-made product features You will find the right solution for every application in our wide range of packaging films for drinks, meat, fish, fruit, vegetables, bread, cakes and pastries and many more products. Our films meet your high requirements and the safety standards. On request, the films can be printed in up to 8 colours.

Many materials and a single goal We offer you a wide range of films, from high-quality mono-films up to co-extruded multi-layer film. Our films and labels have one thing in common: they meet the high requirements on efficiency, quality and ecology.

A question of the right label

The range of services is rounded off by the very large assortment of self-adhesive labels for product decoration, as well as information, logistics and price labels. You have the choice between different adhesive materials ranging from paper to synthetics, many types of adhesives, on rolls or sheets. Our labels can be printed in up to 10 colours, and, on request, can also be supplied with printing on the back. Various procedures such as UV-Flexoprint, silk screen or letterpress can thereby be combined. With Permafrix labels, you can streamline your production and promote sales.

Versatile films and labels

- ◆ Standard films for primary and secondary packaging
- ◆ Special films for all kinds of customer requirements
- ◆ Finish as required to suit specific applications
- ◆ Multi-colour printing for promotional sales
- ◆ Self-adhesive labels in various shapes, fittings and numbers, rational and cost-effective

Flexibility

We are able to react to customer wishes quickly, flexibly and purposefully. We can thereby offer you solutions from a single source – thanks to state-of-the-art infrastructure and efficient teams.

Films and lab

Sophisticated solutions for demanding industries

Successful companies from the cosmetic, pharmaceutical, chemicals and logistic sectors rely on Permapack solutions. Because Permapack offers self-adhesive labels, adhesive tapes, stretch films and highly transparent, brilliant PO shrink-wrap films for Multipacks – complete system solutions that promote sales.

**Perfect cosmetics
for cosmetic products** For cosmetic products in particular, a smart appearance is essential. The ingenious Permapack solutions offer valuable competitive advantages here: from PO shrink-wrap films for multipacks up to labels in a perfect No-Label look, and even in combination with hot film embossing and varnishing – to make the purchase decision easier for your customers.

**Perfection for the
pharmaceutical industry** Pharmaceutical, medical and OTC products have their own rules: Absolute safety, cast-iron control, verifiable identification, labelling accuracy and hygienic execution are imperative. Permafix labels are a match for these challenges: from the multi-coloured high-gloss label for prescription-free products up to pharmaceutical labels that, for example, must adhere to strongly curved surfaces. Thanks to the use of suitable materials, our labels are ready to take on any challenge.

**The logical choice
for logistics** We manufacture self-adhesive labels for identification, information and declaration – complete with barcodes. As a major Swiss provider of stretch films, Permapack has the appropriate solution for safe transportation. In addition to this, we also offer document folders and self-adhesive tapes, which can be printed on request.

Innovation

Continuous development and major investments keep our production installation at the state-of-the-art – now and in the future.

els

Labels and films are your direct link to your customers. Permapack offers you comprehensive system solutions – and we also carry out the pre-press stage and the print form production ourselves. We produce your labels in UV-Flexoprint, rotary screen printing or letterpress in up to 10 colours, and finish them with hot foil embossing and various varnishes.

**System solutions
from a single source**

Various types of printing

- ◆ UV-Flexoprint, rotary screen printing and letterpress for labels
- ◆ Perfect print image with up to 10 colours
- ◆ Finishing with hot and cold foil embossing and varnishes
- ◆ Modern, efficient pre-press stage with in-house print form production

Retail

Professional ranges for the wholesale and retail trade

Both the wholesale and the retail trade benefit from the wide product range and experience of Permapack. The available range includes adhesive tapes and sealants for do-it-yourself, a wide selection of stationery and a range of cling films and bags for domestic use and in the restaurant and catering trade.

Everything for stationery shops and the office From adhesive labels for schoolbooks to adhesive tape dispensers: The stationery product range is presented in an attractive and uniform appearance. Standards such as adhesive tapes, glues, PC labels and much more thereby become best-sellers. Our consultation services also extend to product range and shelf optimisation: we regard the optimal utilization of the sales area as a real challenge.

Freshness for restaurants, catering and households As a film specialist, Permapack knows what makes a good cling film. And that is why we are the film partner of professional users throughout Switzerland. The product range includes many qualities and finishes – all of which are economic and ecologically sound: The first choice for both the gastronomy professional and the private household.

**Do-it-yourself like
the professionals**

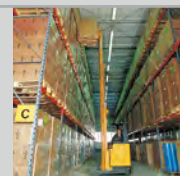

The DIY market is very competitive. For this reason, quality and service are also the ultimate requirements for these products. And that is also the reason why an increasing number of providers rely on products from Permapack. As an additional customer benefit, we offer innovative product ranges at an optimal price-performance ratio.

Total solutions for the following areas:

- ◆ Stationery & office supplies
- ◆ Do-It-Yourself
- ◆ Catering service & household
- ◆ Garden

Logistics

Permapack is well known for its smooth logistics, high delivery capacity and absolute compliance with deadlines: We deliver "just in time".

Technical ad

Joining, masking, protecting with more than 400 different types of adhesive tapes

Permapack is a leading Swiss specialist in self-adhesive tapes. Some 50 years experience give us the ability to deal with all technical and user-specific issues effectively – and create the basis for ongoing new developments.

Individual and fast Our assortment for industry and trade comprises standard and special adhesive tapes for all kinds of application areas. We cut our adhesive tapes to any dimension, and finish them according to your wishes. With Switzerland's largest stock of adhesive tapes, we provide a fast and flexible delivery service.

Highest quality dimension Our precise and cleanly cut technical adhesive tapes are cut on slitting machines of the latest generation: High-precision cut edges, clean side surfaces and a high accuracy of max. +/- 0.05 mm in the width are our standards.

Die-cuts on demand The wide choice of materials, adhesives and product properties available for our technical adhesive tapes are also typical features of our individually prefabricated die-cuts for many different areas of application.

hesive tapes

Innovative surface protection films Self-adhesive films from Permapack protect surfaces from mechanical damage, scratches, marks and impurities of all kinds. And they can also be removed easily and without residue. Whether steel, aluminium, plastic, glass or wood: we supply the right solution for every surface. Even for the most delicate applications, such as in the laser cutting of metal.

Versatile technical adhesive tapes; single and double-sided

- ◆ Electrical tapes
- ◆ Insulation tapes
- ◆ Non-adhesive insulation material
- ◆ Mounting tapes
- ◆ Duct tapes
- ◆ Splicing tapes
- ◆ Aluminium tapes
- ◆ Paper masking tapes
- ◆ Surface protection films

Quality

Consistently high quality is at the focus of all our processes and procedures. Total Quality Management is the guiding principle of Permapack to ensure a successful partnership with you.

Construction

You can rely on Permabond for a tight seal

Professional joining is an art of which building professionals are justifiably proud. That professionalism also needs a professional partner: you can rely on Permabond.

Powerful range of products for the professional Permapack supplies a wide range of highly professional products for joining, sealing, assembling and insulating: sealing compounds, window putty, PU foam, mounting and sealing tapes in many variations and qualities – ideal for use in civil engineering and construction applications, metal construction and wood construction, as well as in shell and interior work.

Complete service programme The product range is rounded off by the well-proven Permafix masking tapes, which are one of the most widely used tapes in the painting and plastering trade. Professionals rely on Permapack quality – even for accessories such as covering materials, application equipment or tools. Materials and aids for window and glazing work enjoy a special place in the assortment: Sealing tapes, sealing compounds, PU foam and much more.

products

Innovation and quality Sealants from Permapack are matched to the high requirements that are met in practice. Thanks to close contacts with our business partners and an intensive exchange of experiences with practitioners, Permapack is always at the cutting edge of development. The use of the best raw materials offers a guarantee for consistent quality.

The sealing materials

- ◆ Sealing compounds
- ◆ Mount adhesives
- ◆ Filling and mounting foams
- ◆ Joint sealing tapes
- ◆ Flooring and skirting tapes
- ◆ Masking tapes
- ◆ Masking paper and films
- ◆ Non-woven coverings

Motivation

Our employees work on varied and holistic tasks in small, efficient teams – in a modern environment with excellent infrastructure, an open flow of information and a high level of self-responsibility.
